

Future's partner programme

2. Commission **proposed**

First 4 weeks (1–28 Oct 2026): 60%, your incentive to get her going. After that: 20% of what the customer actually paid.

Launch-window cost: at 60%, a ฿99.50 weekly sale pays her ฿60. After Stripe (about ฿15), you keep about ฿25 before usage, which can go to zero or below if the buyer uses all 150 minutes. That is the price of the incentive, and it ends on 28 Oct.

Sale	Customer pays	Future gets	You keep, before Stripe fees and usage
Weekly, 50% off (to 23 Oct)	฿99.50	฿20	฿79.50
Monthly, 50% off	฿299.50	฿60	฿239.50
Weekly, 10% off (after)	฿179.10	฿36	฿143.10
Monthly, 10% off	฿539.10	฿108	฿431.10

Why 20% and not more: UNIT-ECONOMICS.md shows thin margins at plausible Realtime rates (a weekly pass breaks even at 25 minutes of use at \$0.20/min), and the launch sale already halves revenue. 20% of a discounted ฿99.50 is ฿20, which is affordable even if the buyer uses their full 150 minutes. The ฿50 Community add-on is excluded because it belongs to the student pool.

3. Bonuses proposed

In one month	Bonus
10 paying customers	+฿300
25 paying customers	+฿1,000
An organisation she brings (hotel, university, charity, company) reaches 5 paid seats	+฿1,000 each

4. Payout

- On the 5th of each month, by PromptPay, for the previous month.
- The source of truth is Stripe's redemptions of FUTURE. I can pull the monthly figure for you and draft the payout note; you send the money.
- No commission on disputed or charged-back payments. The no-refunds policy means no other clawback is needed.
- Tax: payments to an individual for services may need 3% withholding in Thailand. Check with your accountant before the first payout.

5. Rules she agrees to

- Never present LEXIS as a person or teacher. She is a virtual conversation partner.
- No promised results, fake reviews or invented user numbers.
- One-off prices only. Never say "per month" or "subscription".
- No spam. Only post in groups that allow it, at most one group a day.
- No outreach to language schools or tutors (competitors).
- Self-purchases and household purchases don't earn commission.
